The impact of a reviewer on a given films box office performance is a matter of debate. Some observers claim that movie marketing in the 2000s is so intense, well-coordinated and well financed that reviewers cannot prevent a poorly written or filmed blockbuster from attaining market success. However, the cataclysmic failure of some heavily promoted films which were harshly reviewed, as well as the unexpected success of critically praised independent films indicates that extreme critical reactions can have considerable influence. Other observers note that positive film reviews have been shown to spark interest in little-known films. Conversely, there have been several films in which film companies have so little confidence that they refuse to give reviewers an advanced viewing to avoid widespread panning of the film. However, this usually backfires, as reviewers are wise to the tactic and warn the public that the film may not be worth seeing and the films often do poorly as a result. Journalist film critics are sometimes called film reviewers. Critics who take a more academic approach to films, through publishing in film journals and writing books about films using film theory or film studies approaches, study how film and filming techniques work, and what effect they have on people. Rather than having their reviews published in newspapers or appearing on television, their articles are published in scholarly journals or up-market magazines. They also tend to be affiliated with colleges or universities as professors or instructors.

Preview Main article: Test screening A preview performance refers to a showing of a film to a select audience, usually for the purposes of corporate promotions, before the public film premiere itself. Previews are sometimes used to judge audience reaction, which if unexpectedly negative, may result in recutting or even refilming certain sections based on the audience response. One example of a film that was changed after a negative response from the test screening is 1982s First Blood. After the test audience responded very negatively to the death of protagonist John Rambo, a Vietnam veteran, at the end of the film, the company wrote and re-shot a new ending in which the character survives.11

Box office : In early March 2020, it was predicted that the global box office could lose US billion as a result of the pandemic. Countries that are pandemic hot-spots have closed or restricted cinemas and movie theaters, negatively affecting film revenue. Attendance has also been lower in other regions. Following the pandemic in mainland China, 70,000 cinemas were closed in January 2020. In the first two months of 2020, Chinas box office was down to US.9 million, compared to US.148 billion in the first two months of 2020.2 Later, as a result of the pandemic in Italy, on March 8, 2020, the Italian government ordered all cinemas to be closed, for up to a month. Before the closure, box office tracking estimated a 94% drop for the weekend of March 6–8 compared to the same period the previous year.8 Because of the growing pandemic in France, cinemas are operating at half capacity, leaving strategic seats unavailable to reduce proximity in the screens,9 a move followed days later by the Irish and Northern Irish cinema chain Omniplex Cinemas.10 On March 12, Qatar also closed all cinemas,11 as did the US on March 17, Malaysia and Thailand on March 18,12 the UK on March 20, Australia and New Zealand on March 22, and Singapore on March 27.13 After a state of emergency was declared in Tokyo and six other prefectures in Japan on April 7,14 over 220 cinemas were closed.151617
